Assignment Title: Design Sketch and Tool Tutorial

Tool Selection:

As a design tool I chose a Figma - powerful app.

Design Sketch:

As I 100% by myself created a design of a web-site for our team project, I am providing a link to the workspace in Figma there you can find design of our web-site adopted for tablet, computer and smartphone (same template, but different proportions and some features for each format to make interaction as much as convenient as I can)
